

PodiaLift

Simplified Wheelchair Patient Support

Remote Controlled Patient Lift System

Our portable PodiaLift system is a great solution for your wheelchair patient lifting applications. Features included are:

- Completely pre-wired
- Plugs into 11 volt / 15 amp wall outlet.
- Straight through platform is 54" long x 34" wide.
- Retractable castors convenient during relocation.
- Direct drive worm-gear.
- Keyed emergency stop to control use of lift.
- Expanded metal platform allows full visibility under platform.
- Requires minimal maintenance.

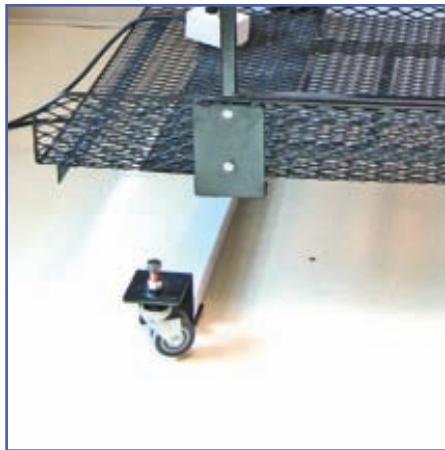

COMPLETELY PORTABLE

Safety First

The PodiaLift entry ramp closes behind the patient to prevent roll back.

Quality Castors

Dual, heavy duty neoprene castors are quiet and smooth and won't mar your floors.

Open End Design

The PodiaLift has a convenient open ended design which allows for full access to foot rests.
